

## 化学科講演会のお知らせ

講演題目：Escape from Noble Transition Metal

講師：Professor Christophe Bour  
(Université Paris-Sud, France)

日時：1月14日(金)

午後4時30分より

場所：南7号館7階セミナー室

Lecture summary: The discovery of simple processes and reactions has always been one of the priorities of modern organic chemistry. We disclosed that well-defined first row transition metal as well as Group 13 metals or calcium derivatives could be used as catalysts for C-C and C-N bonds formations.
